Inventory layout

https://github.com/playingfield/ansible_inventory.git
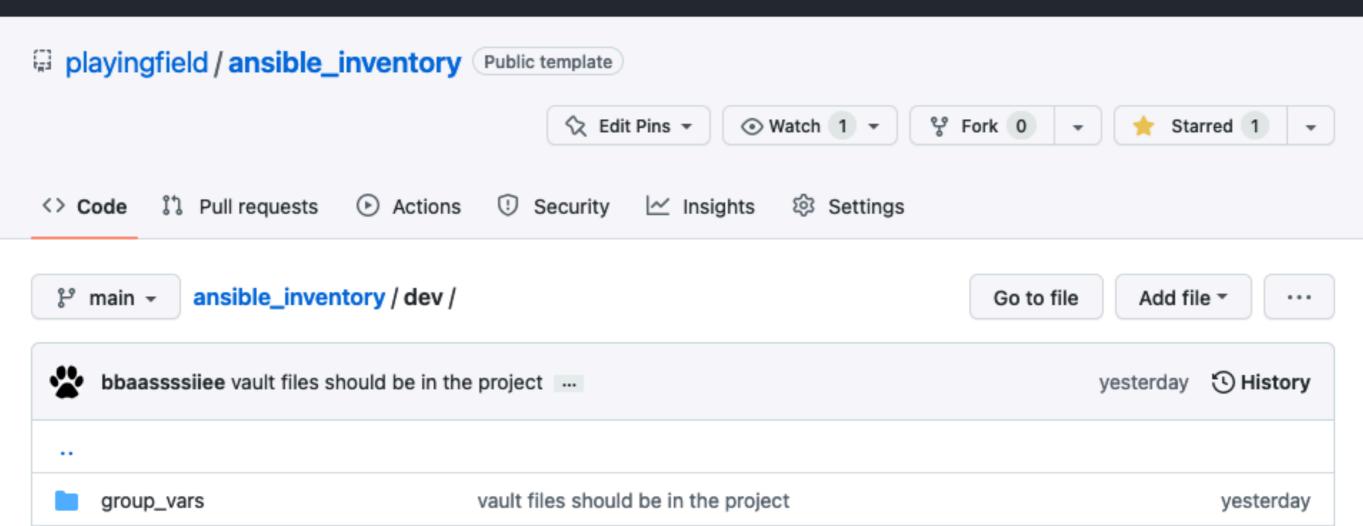

```
dev/                        # an inventory defines one environment
    hosts                   # define the groups in the inventory
    group_vars/             # variables for particular groups
        all                 # all is reserved, don't use it
        db/                 # directory for db group
            vars.yml        # plaintext variables for db group
        web/                # directory for web group
            vars.yml        # plaintext variables for web group
    host_vars/              # we rather not use this
        hostname1           # if systems need specific variables,
```
